

Task #	23 – 05	Date:	23 March 2023
Meet:	Main Entrance Millennium Park		

12 volunteers today made a huge impact at the main entrance the Millennium Park. The area was cleared of bramble, weeds and Ivy, trees and shrubs trimmed back, and 3 new bug homes made with the green waste.

We also dug over the areas near the paths where the grass is thinning out and sowed grass seeds.

The entrance area will soon be replanted with spring bulbs and summer flowering British native perennial wildflowers.

Thanks to the team today: (L-R) Russell, Philip, Nick, Honor, Steve, Bob, Pat, Stewart, Karen, Margaret and Julie (off camera) – a great effort all around to get it all finished. Thank you

Next Task:

Date: Thursday 10:00 **6th April**

Location: **Bridge Street Amenity Area**
