

Pennywort Team

Date: Thursday 25th July 2024

Thank you to Karen for joining me today to see how well we can clear pennywort from the riverside just beyond Barrow Weir on the way towards Mountsorrel.

A few mats were forming up among the reeds nearest the banks and in very shallow water. We successfully managed to remove the mats from the area identified, which were all left between the footpath and the river bank.

About 6-8 large piles of weed were removed and will slowly rot down as the weather warms.

Hard but rewarding, thanks Karen
