

Pennywort Team

Date: Wednesday 18th December 2024

A huge effort by the team today to get rid of a large mat of Pennywort between Barrow Boating and the weir.

We were lucky to be fairly sheltered from the strong winds when we started removing this rather large mat of weed as it needed a few sections to be broken off to float it across for removal, but the wind did begin to pick up as we were finishing which meant one small section was left in place for another day.

We were also able to clear a few small mats from the Deep Lock end.

Thanks to our team today, Sarah - in the water, Karen, Brian, Nick and Ian on the land.

The huge mat before

First section removed

The area cleared
