

Task #	24 – 26	Date:	14 November 2024	
Task:	Towpath Repairs – part 1 – Deep Lock towards The Navigation			

Another great turn out from the team today - and what a lovely morning to be out along the canal. The towpath, starting at Deep Lock towards The Navi, was topped up with grano material supplied by The Canal and River Trust.

The material binds together when compacted so after finding a suitable hole to fill our volunteers were stomping and dancing all over it to make a flatter and more even surface for everyone to use. Although we did use tamping tools too, it was definitely more fun seeing those dance moves. It'll take a few days, and a bit of moisture taken up from the ground, before it sets and hardens fully.

Thanks to the team today: (L-R) Alistair, Patricia, Andy, Paula, Pat, Anne, Margaret, Terri, Ian, Bob, Karen and Philip

Next Task:

Thursday 28 November 10:00

Meet: **The Navigation**
