

Task #	25 – 01	Date:	9 th January	
Task:	Millennium Park - Old Wildflower area			

Beautiful day to be out for our first task of the year - and we soon warmed up after a very chilly start to the day.

We continue to try to rejuvenate the old wildflower area in the far corner of Millennium Park at the Melton Road entrance. This is our yearly task to take the top covering of leaf fall off the grass to allow some early spring light to reach the soil to warm it through. Already a few signs of growth coming in although this sudden cold spell may hold that back a few weeks.

We also cut back a few more unwanted saplings and together with the raked leaf mulch we added more habitat piles within the undergrowth.

The team hard at work

A great turnout made light work of the task today - thanks Team, Ian, Alison, Anne, Karen, Patricia, Paula, Nick, Pat, Alistair, Philip, Andy

Next Task:

Thursday 23 January 10:00

Meet: **Moorings Entrance Area**
