

Task #	25 – 02	Date:	23 rd January	
Task:	The Moorings jitty and over the bridge			

Another great turnout considering the rather drippy weather for the first 10 minutes. We did manage to work in the dry for the most part, finishing just as the rain was about to come in again.

Today we were clearing mainly leaf litter from the jitty running alongside The Moorings, up and over the railway bridge. If left, the leaf litter quickly turns into compost, which in turn allows more weeds to grow. Plus, by removing it, we help to reduce the chances of people slipping on the steepest parts of the path.

We also cleared the path on the other side that runs parallel to the railway lines, including reducing some over growing bramble on the top of the cobbled wall which was already sprouting fresh growth at a fairly alarming rate for this time of the year.

A warm welcome to new volunteer Louise and thanks to Charnwood BC for the 6 community bins they provided and we filled. Big thanks to the team today for making such a difference to this well used path.

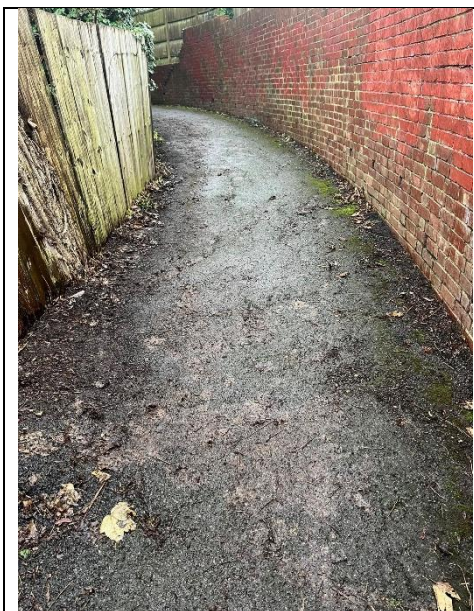

In the jitty - middle section all cleared

Top of the jitty

Phil trimming the ivy

Bottom of the jitty

Looking up from the cobble wall

Looking down from the cobble wall

Thanks to the team today: (L-R)
- Alistair, Andy B, Louise, Pat,
Nick, Phil, Anne, Bob, Karen,
Steve, Patricia and Trev

Next Task:
Thursday 6 Feb

Meet: **Melton Road / Fishpool
Way junction**
