

Task #	25 – 26	Date:	13 th November	
Area/ Task:	Bridge St to Mill Land footpath – Piets/Pigs Close			

Perfect morning to be out and about clearing the autumn leaves, and today we@ were down at Piets/Pigs Close getting huge amounts swept away from both the footpath, and lots of the surrounding grass and banks.

The team worked liked Trojans to clear the whole path from Bridge Street to Mill Lane, including the paths down from Holbourne Close. Most of the leaves were put straight into the surrounding copsed areas as it was already decaying nicely into the early stages of compost, although we also filled 8 brown bins supplied by Serco/Charnwood BC - many thanks to them.

Andy B and Nick made a few improvements to our dead hedge on the canal side by driving in securing stakes, and topping up with more small branches, twigs and, not surprisingly, lots of leaves. It is all decomposing nicely into a great habitat area for insects and small mammals.

An absolutely fantastic team performance today - thanks to Karen, Patricia, Bob, Pat, Philip, Andy, Nick, Alistair, Andy B, and Trev
