

Pennywort Team

Date: Thursday 10th July 6pm

Our first Pennywort session of the year - at the same place as our final one for last year - the waterway just by Barrow Boating. The mat has been growing steadily over the past few weeks so needed to be tackled sooner rather than later.

We were very lucky to have Jenny and Ali from the Wild Women Team at LOPC giving us some additional support on the water tonight - many thanks. Also on the water were Nick and Brian, with Karen and I on land hauling it all in. Nick came back on land to help pull in the last really large section - which was most welcome at that stage.

Thanks to the team tonight, Karen, Brian, Nick, Ali and Jenny

Just started - paddle boarders at one end, and the canoe at the other

Pulling in sections by rake & rope, and collection via board – both very effective tonight

Cleared of Pennywort – just the reeds left

We landed a fair bit - the pile was approx 6m long by 2m deep by 3ft high, so at least 20-25tonnes.

Next Event:

Date & Time: **Thursday 17th July 6pm**

Meeting Point: **The Navi / Barrow Boating entrance area**
