

Task #	21-08	Date:	17 th June	Review Date:	Sept 21				
				Meet:	Old Station car park				
				Summary:					
				<ul style="list-style-type: none"> • Clear overgrowth from Bridge Street – opposite the roundabout • Clear bramble from footpath along canal footpath (Pigs Close) • Clear Towpath area • Clear footpath towards OneMan bridge 					
				Volunteers:	8				
				Time:	10:00	12:00			
Weather:	Dry and cooler								

Lots of jobs across the southern side of the village today. First clearing the bramble overgrowth from the **corner of Bridge Street and High Street** – opposite Jerusalem Island.

Filling 2 bins with what we managed to remove, we then moved on along the **canal footpath** (Pigs Close) to trim the overhanging bramble.

Luckily not too much to remove and what there was, could be left in the undergrowth to decay.

We moved along to the **towpath** to finish off clearing the green waste from along where we were working last week. Luckily the homeowner on the other side of the path was happy to dispose of this saving us a job.

Thank you!

Final part of the route was to clear the nettles from the **footpath** leading to **One Man bridge**.

Lots of people walking along there today stopping and chatting to thank us for helping.

Next Task:

Thursday 24th June

Location: Millennium Park

Thanks everyone – great work.
