

Task #	21-03	Date:	29 th April 21	Review Date:	Oct 21
	Meet:	Moorings Pub			
	Summary:	Clear leaf debris from the footpath along with overgrowth of ivy, bramble and other green matter.			
	Volunteers:	5			
	Time:	10:00	11:30		
	Weather:	Cool, overcast and a little rain.			

The day was a little cool after recent changeable weather, but forecast to be dry. We did get a few spots during the morning, but not enough to put of this hardy team!
 We were due here at the end of last year but had to cancel due to restrictions, so it's been a little over 12 months since we last did this bottom stretch of the jitty. Lots of leaf litter and a re-growth of ivy around the trees and fences to take care of mainly.

Before

After

We cleared the as much of the overgrowth as possible from the clematis type plant at the bottom of the path. It was starting to put on lots of green shoots so would soon of been all over the path.

Before

After

Lots of weeds had restarted to grow out from the bottom of the walls and fences. A good scrapping out and removing some of the leaf litter soon sorted that out too.

Much smarter now! Although we couldn't do much with the graffiti.

After starting at the bottom of the jitty we moved up towards the bridge over the railway.

Andy and Martin clearing the leaf litter away after all the weeds and ivy had been cut back and removed.

We are lucky to have support from Charnwood Borough Council who kindly supply brown bins for the day and take away the green waste for us.

Martin & Andy

At the top with Phil and Nick and another full brown bin!

Thanks everyone – great work.

Phil & Nick

Next Task:

Tuesday 4th May
Location: Mill Lane
