

Barrow Community Litter Pickers

Date:	Monday 13 th October 2025
Location:	King George V Park – Sensory Gardens

By special request:

We were asked by Helen Sadler (on behalf of BUSCA) to plant some crocus bulbs in the grassed area behind the Sensory Garden at King George V Park.

The bulbs have been very kindly donated by village residents over the last few weeks who have dropped them off at either Taylor's Flower Shop, Barrow Library, or the Parish Council Offices. BUSCA provided a substantial cash donation which meant a huge amount of additional bulbs could also be planted.

Volunteers from both our Footpaths and Litter Picking Groups came along today and between them have planted over 1500 bulbs. The bulbs are different colours and sizes and were planted fairly adhoc throughout the area so should look absolutely amazing in spring when they all start to emerge - I can't wait to see it.

Thank you to Helen for organising this event, to all the businesses helping with the collection, to all the residents that donated and the the volunteers that planted - a true community event.

Our litter picking team helped plant bulbs in King George's Park today and also managed to clear 2 bags of grot from around Cotes Road and Strancliffe Lane - thanks Nick, Wendie and Liz

**Next Event:**

Date & Time: 3rd November

Meeting Point: Top of Old Station Car Park – High Street
