

Barrow In Bloom

22 July 2025

Back at **Riverside View** with David Batey and the volunteers to top up the paths with a bit more grano dust and install a new planter by the memorial bench.

The team moved 4 tonnes of grano on to the paths ready for whacking while David and Curtis cut some of the grass turf away to widen the path at the entrance area, and also to reshape the path to make way for the new planter. Many thanks to Rossy Cotton for stepping in to help getting the grano in this morning.

The team today were David and Curtis from Bespoke Landscaping and Fencing, alongside our volunteers Nick, Brian, Karen, Philip, Julie, and Patricia.

David has once again helped us with this ongoing **community project** and we wouldn't have been able to do it without his generous contribution. He will finish installing the planter later this week and it will be topped up with soil ready to be planted out. Many thanks for your ongoing support.

Karen and Patricia levelling off the grano dust ready to be whacked

Philip filling up another barrow

Nick and Brian laying grano on the newly widened path

Julie, David and Curtis

The path up to Deep Lock with a top layer of pink grano to tie into the rest of the area

The newly whacked path

The path at the entrance area looking so much better

New planter by the memorial bench being installed with new path layout
