

Barrow upon Soar Station Adoption Group

Sunday 27 April 25

It was rather warm at Barrow Railway Station this morning where 5 of our dedicated volunteers were hard at work cleaning the steps and tidying the bicycle parking area.

Jane cleared all the sycamore saplings out of the fencing and gave the bicycle area a bit of a general tidy up. The green waste will be collected later today for recycling.

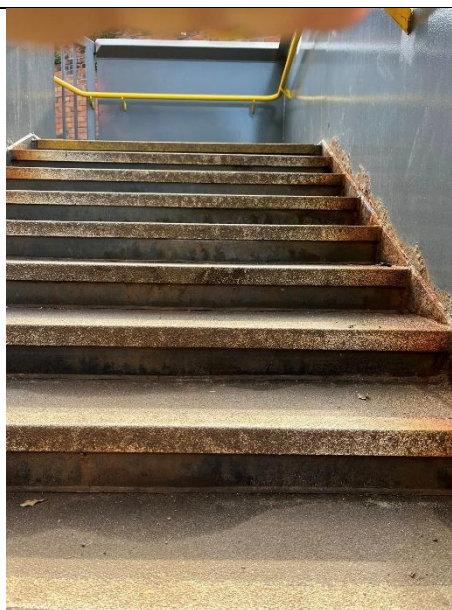

Linda, Karen, Steve and Annette scrubbed the steps clean, not using water this time, just hand scrubbing brushes as the dry mud came off easily with the recent dry weather and made a huge difference in a short amount of time. Much safer now with the painted edges of the steps more visible in poor light conditions.

The station is looking so good at the moment - lots of lovely flowers along platform one all blooming and looking so colourful.

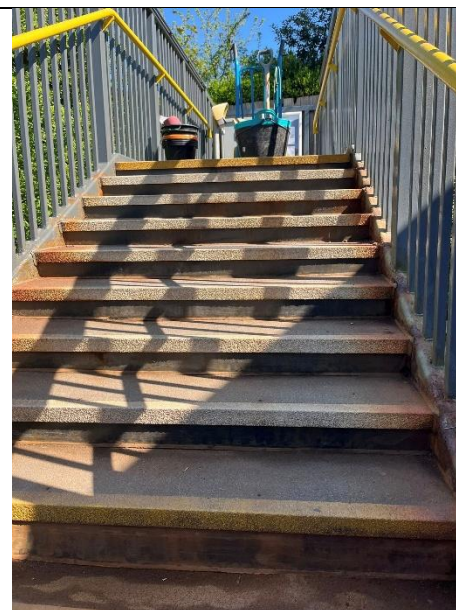

Thanks to all our volunteers.
