

Barrow upon Soar Station Adoption Group

Sunday 30th November 2025

Our last group task of the year at Barrow Railway Station saw us doing our monthly cleanup of the steps leading down to both platforms, as well as our gardening team tidying up one of our platform planters.

We had Karen, Philip, Linda and Steve sweeping and scrubbing the steps today, cleaning off huge amounts of mud and the last few leaves. What a difference it makes to help with visibility on these darker nights.

Jane and Julie, from our Station Gardening Team, were busy all morning on platform one lowering the level of the soil from one area to help with water run off in future years.

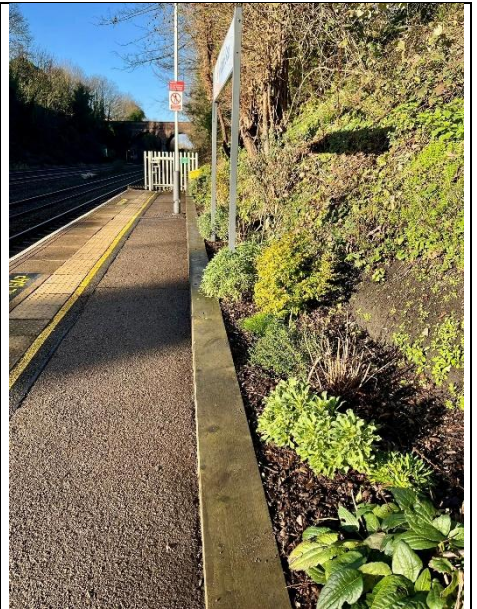

Great effort and results from both teams - thank you and well done

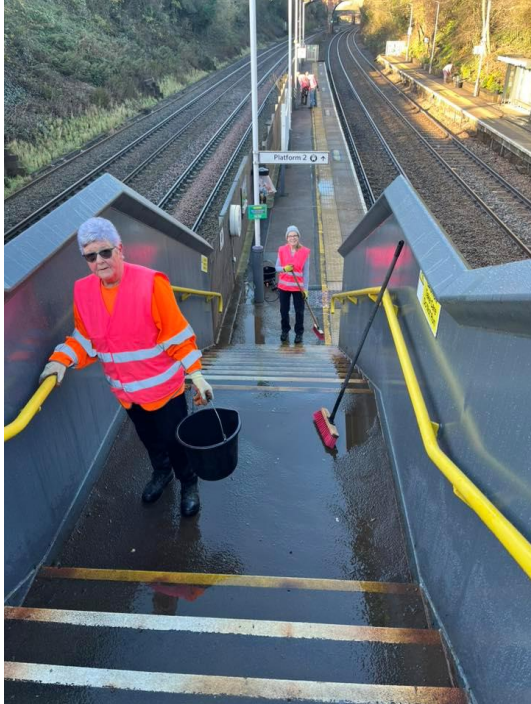

The gardening team were tidying and levelling off this bed today

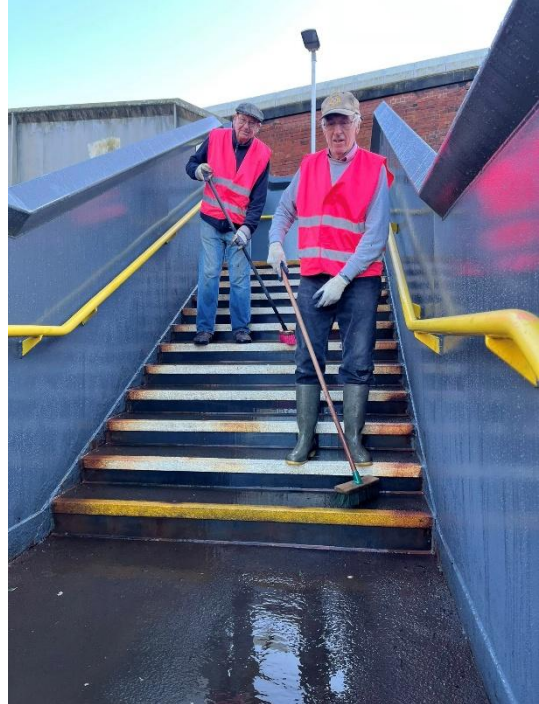

Looking great

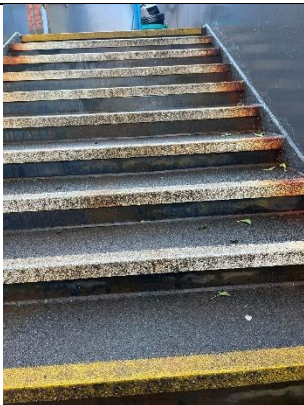

Long planters looking amazing

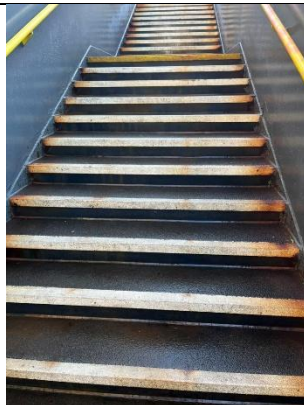

Karen and Linda

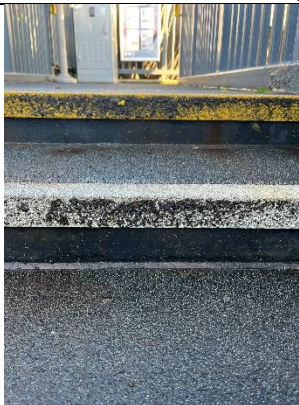

Philip and Steve
