

Barrow upon Soar Station Adoption Group

Sunday 8th Feb 2026

Our Railway Station Gardening Team were trying a new method for making our willow hurdles today. Julie, Jane, Bill, and Andrew did a fantastic job with the material at hand, as they finished approximately one third of the remaining length of the platform.

A little bit of finishing off is still required for this section but now they've got a much better understanding of the work involved before they tackle the next length.

Thanks team

Date of next task: Sunday 22nd Feb 10:00
